

MASTER OF SCIENCE IN ANALYTICS

2024 EMPLOYMENT REPORT

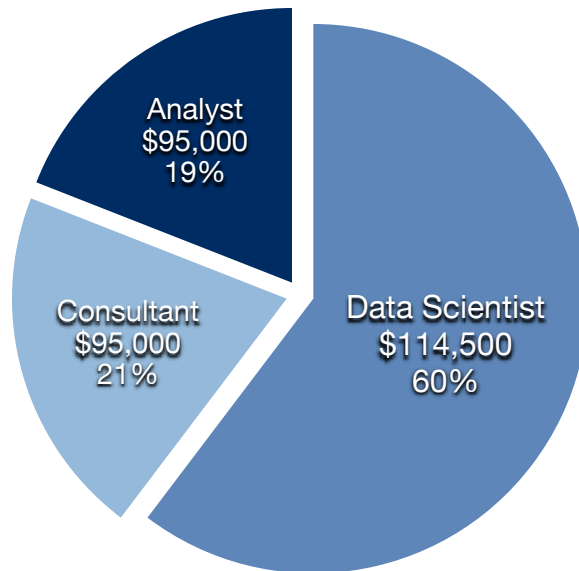

Number of graduates (97% completion rate):	95
Number of graduates seeking new employment:	94
Candidates employed at graduation:	64
Placement rate at graduation:	68%
Average base salary:	\$105,600
Median base salary:	\$110,000
Number of employers interviewing:	124
Number of employers hiring one or more candidates:	29
Total number of reported job offers:	91
Job placements facilitated by the Institute:	82%
Median net increase in earnings:	60%
Median ROI payback period (in months):	28
Job placements based in North Carolina:	54%
Job placements based in U.S.:	100%
Candidates reporting salary data:	98%

Placement results for Class of '24 reported upon graduation, May 28, 2024.

N	63	30	19	14	44
% Reporting	98%	48%	30%	22%	70%

Notes: Data with respect to salaries and bonuses are self-reported by graduates (without anonymity) and whenever possible verified by the employer in cases where placement is arranged by the Institute (i.e., most candidates). All job placements are full-time paid positions. Data are made public here to guide prospective students and employers. Annual base salary figures do not include signing bonuses, annual bonuses, equity or options, relocation allowances, or other forms of one-time compensation guaranteed upon signing. One job is contingent on passing security clearance. The MSA is a STEM-qualified degree. International graduates are eligible for Optional Practical Training (OPT). Commencement is typically held on the first weekend in May, prior to the university's official graduation date. Employment results are reported each year on or about May 15 for consistency.

DISCLAIMER: Over its 17-year history, the Institute has placed over 98% of its graduates in full-time professional positions within 90-days of graduation. But it does not under any circumstance offer a guarantee of employment upon completion of the degree.

Net Salary Increase	\$49,000	\$52,000
Payback Period (months)	22	28
Net Increase in Earnings	74%	75%

Based on graduates with full-time domestic employment prior to program entry. Graduates with prior employment outside of the U.S. (with earnings in other currencies) are not included.

PAYBACK PERIOD CALCULATION

$$\text{Payback Period (in months)} = \frac{(\text{Pre-MSA Salary} + \text{Tuition}) - \text{Signing Bonus}}{\text{Post-MSA Salary} - \text{Pre-MSA Salary}} \times 12$$

Notes: Respondents provided information about their pre- and post-MSA annual base salaries, signing bonuses, and residency status (which determines tuition payments). The ROI payback period is calculated for each candidate employed by graduation, based on their individual circumstances (residency, tuition, pre- and post-salaries, and signing bonuses)..

Students are assumed to forgo one-year of earning, even though the MSA program is 10-months in duration. The payback calculation does not take into consideration interest incurred by students who borrow to finance their education.

ESTIMATED NET INCREASE IN EARNINGS FOR ALL CANDIDATES, RANK ORDERED

Note: The net increase in earnings is calculated for candidates with no prior work experience using inputted data for the median earnings reported by university graduates in May 2023 (\$68,750). Source: Institutional Strategy and Analysis, May 2023 Undergraduate Future Plans Survey: All Respondents Overview, NC State University.

Geographic distribution is based on the location of the employer office, which may be different from the location of the candidate due to the increasing commonality of remote work.

EMPLOYMENT BY RESIDENCY STATUS PRIOR TO ADMISSION

	Percent of Candidates Employed		Subtotal
	Inside North Carolina	Outside North Carolina	
Non-Resident	19%	21%	40%
NC Resident	35%	25%	60%
Subtotal	54%	46%	100%

Graduates with remote work arrangements are classified by their state of residence, not the employer location.

PLACEMENT CONCENTRATION AMONG THE TOP-5 AND TOP-10 EMPLOYERS

RECRUITING TIMETABLE	
New cohort arrives:	June
Admissions Report with class demographics published:	July 1
Student roster available on Institute web site:	July 15
Employer information sessions begin in:	September 15
Student Profiles published:	October 1
Student Resume Book sent to employers:	December 1
Job interviews begin in:	January
Student job decision date:	March 1
Graduation in the first week of:	May
Employment Report published:	May 15
Candidates typically begin employment by the first week of:	June
Open job positions can be circulated to MSA alumni:	Upon receipt
MSA recruitment is managed entirely by the Institute as a service provided free of charge as a courtesy to employers.	

DISCLAIMER

The Institute has a proven track record for placing graduates in the analytics profession, but it does not under any circumstance offer a guarantee of employment upon degree completion.

DIRECTOR'S CERTIFICATION

The report of employment outcomes referred to above present fairly, in all material respects, the employment of the Institute's students at graduation as of May 28, 2024 in conformity with principles generally accepted among universities in the United States of America.

* = employers that hired more than one candidate.

The list includes conditional offers (i.e., those requiring security clearance) made by agencies of the federal government only in those instances where the candidate was cleared for employment.

STATEMENT BY THE DIRECTOR

Throughout its history, the Institute has reported job placement results for its students at the time of graduation. The Class of 2024 is no different. However, because of the impact of the prevailing economic conditions, the Institute is providing this addendum to its 2024 Employment Report to account for the placement activities 90-days after graduation. The Institute remains actively involved in the job search for students seeking employment after graduation.

DISCLAIMER

The Institute has a proven track record for placing graduates in the analytics profession, but it does not under any circumstance offer a guarantee of employment upon degree completion.

DIRECTOR'S CERTIFICATION

The report of employment outcomes referred to above present fairly, in all material respects, the employment of the Institute's students at 90-days post graduation as of August 15, 2024 in conformity with principles generally accepted among universities in the United States of America.
